F360EX Lift
with extended platform

F360/F360EX platformlift
The most innovative platform lift in the world

Mercedes Viano-Vito
equipped with Fiorella Lift

The Fiorella F360 can also be installed on the Nissan Elgrand/ Serena/Urvan/Evalia(NV200), Toyota Alphard/Hiace/Townace, Hyundai H1, and several Mitsubishi, Subaru, Suzuki, Daihatsu models.

Fiorella Wheelchair Systems, based in Cervia, Italy, has produced platform lifts for the personal market for over 20 years and distributes its lifts worldwide. The Fiorella design is uniquely attuned to the needs of platform lift users. Customer focus and engineering creativity allows Fiorella to offer platform lifts with features no one else can.

fiorella advantages

- Visual and audible maintenance reminders
- Italian design that integrates beautifully with vehicle interiors and exteriors
- Cutting edge materials and engineering for compact size and low weight
- F-Twister option allows the lift to rotate by 90°
- Detachable control unit plus right and left arm allow a wide range of configurations for maximum versatility
- Unique anti-crushing arm to stop the lift if any body part or object is in its path

ease of use

All lift functions can be controlled via the standard, jewel-like keychain remote or through an intuitive multi-language LCD interface. The LCD interface informs users when service is required or a maintenance interval is approaching, both with visual messages and audible reminders.

integrated design

Until now, platform lifts have been more industrial-looking. Fiorella's Italian design team has developed a platform lift that integrates beautifully with vehicle interiors. For customers who desire the highest level of visual integration, the external lift covers can be painted to match the vehicle exterior.

modularity & versatility

The Fiorella Lift comes in semi and automatic versions to meet the needs of both caregivers and independent drivers. The LCD control unit is detachable and can be located anywhere in the vehicle when space is at a premium. In addition, Fiorella is offered in both right and left arm configurations, and with both compact and extended platform size, making it possible to optimize lift installation for specific applications and positions.

specifications

Semi-automatic and fully automatic versions available for caretakers or independent drivers. Note the following dimensions:

Multilanguage LCD interface

Standard wireless remote with sliding cover to protect controls with an elegant chrome finish

Platform covers are color customizable

F-TWISTER®

Optional swivel function allows rotation of the Fiorella Lift, clearing vehicle entrance. The Lift can be installed along with F-Twister on the side door with internal rotation to be used in Shuttle-minibus conversions or on the rear door with external rotation for Taxi applications. F-Twister also represents the quickest and most efficient emergency exit.
